

# ICT for Sustainability

## Call for posters 2016

The ICT4S conferences bring together leading researchers in ICT for Sustainability with government and industry representatives, including decision-makers with an interest in using ICT for sustainability, researchers focusing on ICT effects on sustainability and developers of sustainable ICT systems or applications.

### Important dates

- ◆ Poster submission deadline: 21 June 2016
  - ◆ Poster acceptance notification: 30 June 2016
- 

### Detailed guidelines for posters

We welcome posters corresponding to the conference theme & topics.

Posters should be prepared in A0 format, meaning a maximum width of 841 mm/33.11 inches and a maximum height of 1189 mm/46.81 inches. We advise you to prepare a poster in portrait format (i.e. “standing up”). Landscape format is accepted, but since the maximum width is 841 mm/33.11 inches this will leave you less space to use. In other words, you are not allowed to just flip the A0 over 90 degrees.

There are no requirements on fonts, font sizes, logos or other matters concerning the layout. However, making a successful poster takes some skills.

In contrast to a paper, a poster is to present your research through visual elements such as diagrams, figures, flow charts, tables etc. rather than in text. Keep the text to a minimum. “Bullet points” are better than sentences. Also make sure that you use a font size that will make it readable at some distance. Here’s one suggestion to point to you in the right direction:

Title: 85pt  
Authors: 56pt  
Sub-headings: 36pt

Body text: 24pt  
Captions: 18pt

For more useful advice, a good and concrete guide on poster design is provided here:
